Log book for Daily Inspection of Avanti Service Lift

# Protocol Book

## Log Book for Daily Inspection of Avanti Service Lifts

This Log book is part of any Avanti Service lift installation and shall be present at the lift installation during the lift's entire lifetime. The log book is to document the necessary Daily Inspection before operation of the service lift and Avanti recommends you to store it in the blue bag inside the cabin.

Owner: \_\_\_\_\_

WTG address: \_\_\_\_\_

Avanti lift model – Lift 2000  SWP L/XL  Dolphin  Shark

Octopus  Pegasus  Stingray

Lift no. / Tower height: \_\_\_\_\_ / \_\_\_\_\_

Fall arrester model(s) - BSO  OSL  ASL  Serial no.: \_\_\_\_\_

Hoist model - Tirak  M 500  M 508  Serial no.: \_\_\_\_\_

Taken into use Day/Month/Year :     /     / 20

Above information shall always be filled in with readable hand writing as a part of the final approval before initial beginning use of the Service lift installation. Any Avanti lift installed before and after the release of this book (January 2016) shall be supplied with the book and filled with above information at the very first upcoming mandatory inspection.

Before the first use of any working day it's mandatory that the trained Operator executes the inspection as trained according to the chapter; "Daily inspection by the supervisor" in the related lift manual. Further it's also mandatory for the Operator always to document the inspection by filling in the respective column in tour of this books protocol, when the inspection is executed.

<b>Date (Day/Month/Year)</b>	<b>Hour Counter (if readable from outside)</b>	<b>Good condition (mark with OK if in safe operational condition)</b>	<b>Name of Operator (write with capital letters)</b>	<b>Signature of Operator</b>

<b>Date (Day/Month/Year)</b>	<b>Hour Counter (if readable from outside)</b>	<b>Good condition (mark with OK if in safe operational condition)</b>	<b>Name of Operator (write with capital letters)</b>	<b>Signature of Operator</b>
